What you can do to stop sexual assault:

**SEE SOMETHING WRONG,
DO SOMETHING RIGHT**

Did you know there are three ways to report a crime? The TEXT, WEB & APP Tip Line is a partnership between NCIS and the military community AND provides service members and civilians a safe, discreet and ANONYMOUS option to report criminal and force protection threats within the USN and USMC without concerns of retaliation.

What type of information does NCIS need? The NCIS mission is to investigate and defeat criminal, terrorist, and foreign intelligence threats to the United States Navy and Marine Corps. Types of crimes investigated by NCIS include sexual assault, narcotics, child physical and sexual abuse, burglary and robbery, theft of government and personal property, fraud, and homicide. If you have information pertaining to these or any other serious crime, please let NCIS know.

How do I submit a tip? The three ways to provide anonymous information to NCIS are by TEXT, WEB and APP.

Supporting Material

The prevention of sexual assault is everyone's responsibility. It doesn't just hurt one, it affects ALL.

Sexual assault in our Navy undermines teamwork, morale, unit cohesion, and operational readiness. Also the effects of sexual assault dramatically impact the victims for years to come.

Sexual Assault does not belong in our Navy. We have a 'zero tolerance' policy for this criminal offense. It is each and every Sailor's responsibility to adhere to this policy and do their part to eliminate this crime within our ranks.

Components of Sexual Assault Awareness, Prevention and Response in the US Navy

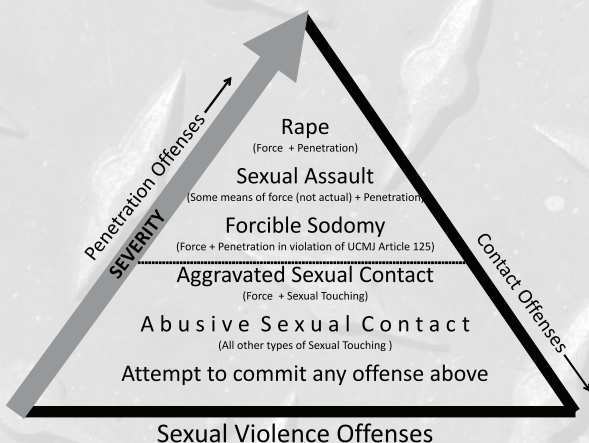

Awareness

Definitions

Assault - The use of unlawful force or violence either as an overt act with the intent of inflicting bodily harm, or as an unlawful demonstration of violence, through an intentional or culpably negligent act or omission, either of which creates in the mind of another a reasonable apprehension of receiving immediate bodily harm.

Consent - A freely given agreement to the conduct at issue by a competent person. An expression of lack of consent through words or conduct means there is no consent. Lack of verbal or physical resistance or submission resulting from the use of force, threat of force, or placing another person in fear does not constitute consent. A current or previous dating or social or sexual relationship by itself or the manner of dress of the person involved with the accused in the conduct at issue shall not constitute consent. A sleeping, unconscious, or incompetent person cannot consent.

Sexual Violence Offenses – Sexual violence offenses include rape, sexual assault, aggravated sexual contact, abusive sexual contact, forcible sodomy and attempts to commit these offenses.

Awareness

Facts

The Navy's FY2011 Report to Congress reported:

- 408 unrestricted reports.
- 174 restricted reports of sexual assault – of all types.
- Over 65% of those unrestricted reports were Service member on Service member – “Blue on Blue” incidents.
- Investigations indicated that subjects included Sailors of all ranks and both genders.

Prevention

The most powerful tool in stopping sexual violence offenses is Bystander Intervention (BI). The BI process includes the following:

- Notice the event
- Interpret it as an emergency
- Take responsibility to act – don't assume someone else will
- Decide how to act
- Choose to act

Bystander Intervention Tactics:

- **Direct:** Talk to the person who is acting inappropriately, or to the potential victim.
- **Indirect:** Suggest that someone observing the situation might be concerned about the person's conduct.
- **Distraction:** Utilize creative options to distract the people involved in order to de-escalate the situation. This may involve humor or appealing to other interests of those involved.
- **Protocol:** Report what you observed “up the chain” and seek guidance on how best to respond.

Reporting

There are two reporting options available: Unrestricted and Restricted.

- **Unrestricted Reporting:** A process used by an individual to disclose, without requesting restricted reporting, that he or she is the victim of a sexual assault. Under these circumstances, the victim's report to the SARC, SAPR VA, Healthcare Personnel, command authorities, or other persons are reportable to law enforcement and will be used to initiate an official investigation process.
- **Restricted Reporting:** A process used by an individual to report or disclose that he or she is the victim of a sexual assault to specified officials on a confidential basis. Under these circumstances, the victim's report and any details provided to the SARC, SAPR VA, or a Healthcare Personnel will not be reported to law enforcement or the command. An official investigation will not be initiated unless the victim changes his/her report to an unrestricted report.

A sexual assault forensic examination (also known as sexual assault kit or SAFE Exam), which is performed at medical, is the **choice** of the victim regardless of reporting option.
